

Accelerate talent hire

Automate your hiring process and manage high turnover recruitment with ease.

OCS Recruitment Module

Mintra's OCS HR recruitment module enables users to automate their hiring process and manage high turnover recruitment with ease. The functionality allows businesses to deploy, oversee and accelerate bulk hire.

The module incorporates a self-service capability, which allows candidates to create, view and manage their applications. All applicants can upload their personal data, CVs and any qualifications or certificates into OCS HR, to be matched against active roles in real time.

By taking advantage of the open application function, businesses can retain applicant information to secure a pipeline of talent for any future vacancies.

The recruitment functionality accelerates the onboarding process as the candidate's personal details, career history and qualifications will already be pre-populated in the OCS HR system.

Benefits:

Save time

Reduce time spent on sourcing, screening and filtering applications

Reduce cost

Save on cost per hire without compromising on the quality of talent

Recruit smarter

Utilise the comprehensive talent pool and pipeline to speed up recruitment

Accelerate onboarding

Streamline new employee onboarding and expedite deployment

Features:

- ✓ Bulk create and advertise job vacancies
- ✓ Manage high volume of applications
- ✓ Quick search through multiple application pools
- ✓ Oversee the full recruitment process
- ✓ Create custom job advertisements
- ✓ Match candidates with existing or future positions
